

**NATIONAL POSTGRADUATE MEDICAL
COLLEGE OF NIGERIA
FACULTY OF OBSTETRICS AND
GYNAECOLOGY
SENIOR RESIDENCY IN GYNAECOLOGICAL
ONCOLOGY CERTIFICATION LOG BOOK**

NAME:

INSTITUTION:

DATE PASSED PART 1:

LOG BOOK/LEVEL OF COMPETENCY FOR GYNAECOLOGIC ONCOLOGY SENIOR RESIDENCY TRAINING PROGRAMME IN OBSTETRICS AND GYNAECLOGY.

LEVEL OF COMPETENCY	DEFINITION
1	Learner only observes modelled behaviour, because they do not have the skills or knowledge to perform a specific EPA, even with full supervision
2	Learner practice the EPA under controlled circumstances with full supervision
3	Learner practice the EPA with supervision on demand
4	Unsupervised practice is allowed, with the caution that learners will seek help when their capabilities are insufficient to competently complete the task
5	Able to supervise others and teach them through entrusting

CORE POSTINGS IN GYNAECOLOGIC ONCOLOGY

1 FIRST QUARTER

1.1 Theoretical Knowledge

This will involve lectures, tutorials, seminars and journal club presentations

S/N	DATE	TOPICS	TYPES e.g. Seminar	REMARKS e.g. presented	NAME AND SIGNATURE
1.		Molecular Basis of Cancer			
2.		Aetio-Pathogenesis of Gynae-Cancers			
3.		Epidemiology of Gynae-Cancers			
4.		Prevention of Gynae-Cancers			
5.		Colposcopy			
6.		Surgical Anatomy I : Abdomen I			
7.		Surgical Anatomy II: Abdomen II			
8.		Surgical Anatomy III: Pelvis I			
9.		Surgical Anatomy IV: Pelvis II			
10.		Surgical Anatomy V: Vulva and Vagina			
11.		Principles and pharmacology of chemotherapy			
12.		Clinical Presentations of Cervical Cancer			
13.		Clinical Presentations of Ovarian Cancer			
14.		Clinical Presentations of Choriocarcinoma			
15.		Clinical Presentations of Endometrial Cancer			
16.		Clinical Presentations of Fallopian Tube Cancer			

- 17. Clinical Presentations of Vulva and Vaginal Cancer
- 18. Diagnostic tools in Gynae-Cancer I: Imaging
- 19. Diagnostic tools in Gynae-Cancer II: Biomarkers

1.2 Skills and Clinical Competences: Pap Smears Taken

4. FOURTH QUARTER OF GYNAECOLOGIC ONCOLOGY TRAINING

The competence at this level must be evaluated as ability to stand alone in all aspects of patient management as well as theoretical basis. Must be able to take lead role in tumour board, patient allocation to specific type of care and be lead surgeon guiding younger residents through surgery. E.g. Management of Ovarian Cancer, Early Cervical cancer, Choriocarcinoma etc.
