NATIONAL POSTGRADUATE MEDICAL COLLEGE OF NIGERIA

# LOGBOOK FOR GLAUCOMA SUBSPECIALTY 

## FACULTY OF OPHTHALMOLOGY

APPROVED BY THE SENATE ON 2ND MARCH, 2023

DR F. A. AROGUNDADE, MD FMCP COLLEGE REGISTRAR

NATIONAL POSTGRADUATE MEDICAL COLLEGE OF NIGERIA

## FACULTY OF OPHTHALMOLOGY

## THE LOGBOOK

FOR

GLAUCOMA SUBSPECIALTY

2022

Resident's Name $\qquad$

Name of Training Institution $\qquad$

Date of Commencement of Training

Name and Signature of Supervisor(s)

## PREAMBLE

## Introduction and Philosophy

Glaucoma as a subspecialty in the Faculty of Ophthalmology will provide needed manpower with relevant knowledge and skills to plan and organize resources for the management of related eye diseases in this field.
Trainees will be expected to acquire skills to train at junior residency level to prevent complications arising from poor management of the common disorders as well as manage such complicated cases.
This 36-month subspecialty Fellowship is intended to prepare candidates for a career as a glaucoma subspecialist with knowledge and skills in the prevention and management of eye disorders resulting from glaucoma and related diseases.

## Course Description

This course aims to impart both basic and advanced skills in glaucoma management. It teaches the aetiologies, classifications, evaluations, and management with emphasis on complicated cases as well as surgery related complications. The principles and ethical decision-making process in management and good patient communication techniques are also taught.

## Expected Competences

To perform the complete preoperative ophthalmologic examination of glaucoma patients, including the consent for procedures. Comprehensive medical management of the glaucoma patient.
To be able to describe the epidemiology, clinical features, evaluation, diagnosis, differential diagnosis, and management of intraoperative and postoperative complications of glaucoma surgeries, including trabeculectomy and non-trab glaucoma surgeries and use of drainage devises. To understand and manage advanced glaucoma surgeries, including intraoperative and postoperative complications.
To develop and exercise clinical and ethical decision making in glaucoma patients, as well as develop good patient communication techniques.

## ACTIVITIES TO UNDERTAKE IN ACHIEVING THE STATED LEARNING EXPECTATIONS

Specific Activities to be undertaken to achieve the stated objectives include but not limited to the following:

1. Ward rounds
2. One detailed case presentation by residents during weekly ward rounds
3. At least one Clinic clerking presentation.
4. Reading assignments including review of journals
5. Tutorial sessions
6. Attendance to at least one theatre session per week.
7. Regular bedside teaching/tutorials for medical students and residents.
8. Attendance to compulsory College and faculty update courses and conferences.

Training Evaluation:
Trainees will be required to keep a logbook of surgical and clinical cases managed (including multidisciplinary team management) and procedures carried out.
Evaluation format: This will consist of formative assessment and examination.
Logbook documentation of:
Procedures observed and performed.

## ASSESSMENT/SCORE SHEET FOR MANDATORY PRESENTATIONS

 ---

Date/Time: $\qquad$
Name of Assessor: $\qquad$
Designation of Assessor

- GRADES OF PERFORMANCE SCORES
- $70 \%$ or more - A
- 60 - $69 \%$----------B
- $50-59 \%$-------- C
- $40-49 \%$--------- D
- $39 \%$ and below- E

## SCALE OF PERFORMANCE GRADES

| PERFORMANCE <br> GRADE | DESCRIPTION |
| :--- | :--- |
| A | Adequate knowledge; Performs skill without supervision; <br> able to take corrections; can reproduce skill on request |
| $\mathbf{B}$ | Adequate knowledge; performs skill with minimal <br> supervision; able to take corrections; reproduces skill <br> with minimal guidance |

| C | Adequate knowledge; performs skill with supervision; <br> able to take corrections; barely reproduces skill |
| :--- | :--- |
| D | Inadequate knowledge; performs skill with supervision; <br> understands corrections with difficulty; Unable to <br> reproduce skill |
| E | Gross inadequate knowledge; unable to perform task; <br> difficulty in following instructions; unable to reproduce <br> skill |

The minimum accepted performance score is Grade $B$ in each of the tasks. A lower grade requires a "make-up" performance to be documented by the supervising Consultant and recorded on a supplementary page.
$1^{\text {st }}$ year Senior Residency FORMATIVE ASSESSMENT
(Should be done every 3 months)

|  |  |  |  |  |  |

## PROCEDURES PERFORMED (CORNEA and ANTERIOR SEGMENT ROTATIONS)

The mandatory procedures and the minimum number that is considered acceptable in this rotation: 1)Cornea/Cataract/Anterior Segment rotation
-Conduct and interpretation of specialised diagnostic procedures including keratometry(20), biometry(20), anterior segment OCT(10)
-Contact lens fitting(5)
-Corneal graft(5)
-Corneal/Scleral/globe repairs(15)
Pterygium surgery-(20)
Ocular surface lesions(5)
Hyphaema management-(5)
Cataract surgery(Phacoemulsification and MSICS)-100
Management of relevant emergencies and complications -25
Teaching of residents and medical students-10

|  |  |  |  |  |  |

## PROCEDURES PERFORMED (PAEDIATRIC OPHTHALMOLOGY ROTATIONS)

The mandatory procedures and the minimum number that is considered acceptable in this rotation:

Comprehensive clinical assessment of children, including refractions (20)

Examination under anaesthesia( 5)
Squint procedures(5)
Glaucoma surgery including goniotomy (5)
Paediatric cataract procedures ( 10 )
Screening for retinopathy of prematurity(5)
Management of paediatric ocular and orbital tumours(5)
Management of paediatric emergencies(5)
Teaching of resident doctors and medical students(5)

| Dat <br> e | Procedur <br> e done | Patient's <br> Initials/Hospita <br> lnumber | Observed/assisted/performe <br> d | Gradin <br> g / <br> Rating | Supervisor <br> Names/Signature <br> s |

|  |  |  |  |  |  |
|  |  |  |  |  |  |
|  |  |  |  |  |  |

## PROCEDURES PERFORMED (NEURO-OPHTHALMOLOGY ROTATIONS)

The mandatory procedures and the minimum number that is considered acceptable in this rotation:

## Technical Skills:

i. To perform and interpret the complete cranial nerve evaluation (eg., testing of and facial nerve function) and basic neurologic exam in the context of neuro-ophthalmic localization and disease.
ii. To interpret neuro-radiologic images in neuro-ophthalmology (eg., interpretation of orbital imaging for orbital pseudotumor and tumors, thyroid eye disease, intracranial imaging modalities and strategies for tumors, aneurysms, infection, inflammation, and ischemia), and to appropriately discuss, in advance of testing, the localizing clinico-radiologic features, with the neuroradiologist in order to obtain the best study and interpretation of the results.
iii. To perform and interpret the results of the intravenous edrophonium (Tension) and prostigmine tests for myasthenia gravis, and to recognize and treat the complications of the procedures.
iv. To recognize patients with "functional" visual loss (non-organic visual loss) and provide appropriate counseling and follow-up.
v. To conduct research relevant to neuro-ophthalmic conditions.

## To see variety of all these and tabulate as below.

A. Eye and Neurologic Examination (Minimum of 20)

| $\begin{aligned} & \hline \mathrm{S} / \\ & \mathrm{N} \end{aligned}$ | $\begin{aligned} & \text { Da } \\ & \text { te } \end{aligned}$ | Hosp. <br> No | $\begin{aligned} & \mathrm{Ag} \\ & \mathrm{e} \end{aligned}$ | $\begin{aligned} & \mathrm{Se} \\ & \mathrm{x} \end{aligned}$ | $\begin{aligned} & \text { VA } \\ & \text { RE: } \\ & \text { LE } \end{aligned}$ | Contras <br> t <br> Sensitiv <br> ity | Colo <br> r <br> Visi <br> on | Confront ation Visual Field | Amsler Grid testing | Eyelids, Facial nerve function, Ocular motility |

## PROCEDURES PERFORMED ( PUBLIC HEALTH AND COMMUNITY EYE HEALTH ROTATIONS)

The mandatory procedures and the minimum number that is considered acceptable in this rotation:
-Involvement and Participation in community eye outreach programs(5)
-Involvement and Participation in an international NGDO program(1)
-Establishment of a Prevention of blindness initiative in a rural community and an urban community (2)
-Publication of a public health-centered article in a peer reviewed journal (1)
Teaching resident doctors and medical students(5)

|  |  |  |  |  |  |
|  |  |  |  |  |  |
|  |  |  |  |  |  |
|  |  |  |  |  |  |
|  |  |  |  |  |  |
|  |  |  |  |  |  |
|  |  |  |  |  |  |
|  |  |  |  |  |  |
|  |  |  |  |  |  |
|  |  |  |  |  |  |
|  |  |  |  |  |  |
|  |  |  |  |  |  |
|  |  |  |  |  |  |
|  |  |  |  |  |  |

It is recommended that fellows perform a sufficient number of glaucoma procedures to achieve competence.

Class I (Fellow as Primary Surgeon) and Class II (Fellow as First Assistant)

| Operative Procedures | Class I | Class II |
| :--- | :--- | :--- |
| Complex cataract* or combined procedures | 10 | 10 |
| Filtering procedures, including use of antimetabolites | 20 | 10 |
| Aqueous shunts (valved and non-valved) | 5 | 5 |
| Argon and selective laser trabeculoplasty | 5 | 5 |
| Laser iridotomy | 2 | 5 |
| Laser suture lysis | 2 | 2 |
| Needling of failing/encysted filtering blebs | 2 | 2 |
| Repair of leaking blebs | 2 | 2 |
| Management/reformation of shallow anterior chamber | 2 | 2 |
| Management of hypotony and choroidals | 2 | 2 |
| Laser cyclophotocoagulation | 5 | 5 |
| Goniotomy/trabeculotomy for primary congenital glaucoma | 5 |  |
| Examination under anesthesia for congenital glaucoma | 2 |  |
| Anti-VEGF injections/panretinal photocoagulation | 5 | 2 |

* Complex cataract includes small pupil, posterior synechiae, pseudoexfoliation, loose zonules, and other appropriate cases.

## GLAUCOMA SURGICAL Procedures :

1a GLAUCOMA SURGERY- Trabeculectomy

## PROCEDURES PERFORMED (GLAUCOMA ROTATIONS)

The mandatory procedures and the minimum number that is considered acceptable in this rotation:

Conduct and interpretation of diagnostic procedures including tonometry, gonioscopy, perimetry, OCT( 50 each )

Management of relevant emergencies and complications (20)

## 1. GONIOSCOPY (Minimum of 50)

| Date | Patient's <br> Hospital number | Gonio lens used | Grading <br> Rating | Supervisor <br> Names/Signatures |
| :--- | :--- | :--- | :--- | :--- |
