#### **PREAMBLE**

The Fellowship training in ophthalmic plastic surgery requires more in-depth education about the pathophysiology and management of relevant ophthalmic diseases in the subspecialty than can usually be obtained in residency (registrar or equivalent) training in ophthalmology. The Fellowship training includes a continuous period of intense and focused training in developing and maintaining knowledge, skills, scholarship, and professionalism. The training aims at graduating specialist ophthalmologists competent to lead the eye care team and for the effective eye health care delivery of relevant diseases in Nigeria. The training is conducted in hospitals accredited for this purpose. The training programme is structured to enable a graduated acquisition of more knowledge and advanced skills as the trainee progresses in training.

The senior Residency training has made provision for compulsory first year training in general ophthalmology out of which 3 months each will be spent in cornea and anterior segment, community and public health ophthalmology, and glaucoma subspecialty, and last 3 months in one of pediatric ophthalmology & strabismus, vitreoretinal or neuro-ophthalmology. To ensure adequate learning during the 3 monthly rotations, log book has been designed to ensure procedures carried out are signed by the supervising consultants and an evaluation of learning done at the end of each 3 monthly posting.

# • GRADES OF PERFORMANCE SCORES

- 70% or more -- A
- 60 -69% ----- B
- 40 -49% -----D
- 39% and below- E

#### **SCALE OF PERFORMANCE GRADES**

PERFORMANCE	DESCRIPTION
GRADE	
A	Adequate knowledge; Performs skill without
	supervision; able to take corrections; can reproduce skill
	on request
В	Adequate knowledge; performs skill with minimal
	supervision; able to take corrections; reproduces skill
	with minimal guidance
С	Adequate knowledge; performs skill with supervision;
	able to take corrections; barely reproduces skill
D	Inadequate knowledge; performs skill with supervision;
	understands corrections with difficulty; Unable to
	reproduce skill
E	Gross inadequate knowledge; unable to perform task;
	difficulty in following instructions; unable to reproduce
	skill

The minimum accepted performance score is Grade B in each of the tasks. A lower grade requires a "make-up" performance to be documented by the supervising Consultant and recorded on a supplementary page
